

Anurag Prajapati

React.js Frontend Developer

✉ apanurag1998@gmail.com ☎ +91 62653-36686 📍 111/4 Vishal Palace, Indore (M.P.) 🔗 LinkedIn

👤 Profile

React.js Frontend Developer with 4+ years of experience building scalable, high-performance web applications using **React.js, Next.js, TypeScript, and JavaScript (ES6+)**. Strong expertise in **component-based architecture, state management (Redux, Context API), React Hooks, and REST API integration**. Experienced in frontend performance optimization including **code splitting, lazy loading, memoization, and Server-Side Rendering (SSR)**. Skilled in developing **responsive, cross-browser compatible, and ADA-compliant user interfaces** using Tailwind CSS and modern UI frameworks. Possess working knowledge of **Node.js, Express.js, and MongoDB** to support backend API integration when required.

💼 PROFESSIONAL EXPERIENCE

Yuvasoft Solution Pvt. Ltd.,

06/2022 – Present | Indore, India

Software Engineer – React.js Frontend Developer

Developed scalable, high-performance frontend applications using **React.js** and **TypeScript**, translating UI/UX designs into production-ready, accessible, and optimized web interfaces.

Key Responsibilities & Achievements:

- Developed and maintained scalable frontend applications using **React.js, Next.js, and TypeScript** for enterprise-level platforms.
- Built 50+ reusable and responsive UI components using **React Hooks, Redux, Context API, and Tailwind CSS**.
- Implemented **Server-Side Rendering (SSR)** and SEO best practices in Next.js, improving organic search visibility and page indexing.
- Improved page load performance by implementing **code splitting, lazy loading, memoization, and API optimization**, enhancing Lighthouse scores.
- Integrated RESTful APIs and managed asynchronous state using Redux middleware.
- Ensured cross-browser compatibility and mobile responsiveness across Chrome, Safari, Edge, and Firefox.
- Applied accessibility best practices (ADA compliance, semantic HTML, ARIA standards).
- Collaborated in Agile/Scrum teams, participated in sprint planning, code reviews, and CI/CD workflows.
- Used Git and Bitbucket for version control and Jira for task management.
- Contributed to frontend architecture decisions and performance optimization strategies.

Ypsilon Solution Pvt.Ltd., MERN Stack Developer Intern

12/2021 – 06/2022 | Indore, India

Contributed to the development of full-stack web applications using the **MERN stack (MongoDB, Express.js, React.js, Node.js)** in an Agile development environment.

Key Contributions:

- Developed responsive frontend components using **React.js** and integrated them with **RESTful backend APIs**.
- Built and tested REST APIs using Node.js and Express.js for user authentication and CRUD operations.
- Designed and implemented MongoDB schemas and optimized database queries for improved performance.
- Debugged and resolved frontend and backend issues, improving overall application stability.
- Collaborated with senior developers in code reviews and Git-based version control workflows.
- Assisted in deployment processes and environment configuration for staging and production builds.

EDUCATION

Master of Computer Application, Sage University

2023 – 2025

TECHNICAL SKILLS

Frontend Technologies

React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, Context API, React Hooks, Custom Hooks, Tailwind CSS, Material UI, Styled-Components, HTML5, CSS3, Bootstrap

Backend & APIs

Node.js (Working Knowledge), Express.js, MongoDB, REST APIs, Axios, JWT Authentication, GraphQL (Basic)

Performance & Web Standards

Code Splitting, Lazy Loading, Memoization, Server-Side Rendering (SSR), SEO Optimization, Responsive Design, Cross-Browser Compatibility, ADA Compliance, Semantic HTML, ARIA Standards

Tools & Methodologies

Git, Bitbucket, Jira, Agile, Scrum, Kanban, CI/CD

PROJECTS

Seabourn Cruise Line, <https://www.seabourn.com/en/find-a-cruise>

08/2025 – Present

Developed reusable React.js components for cruise search and booking workflows, ensuring high performance, responsive design, and ADA compliance in an Agile environment.

Role: UI Developer

Technology: React.js, Node.js, AEM, Java, ADA, Jira, BitBucket

Team Size: 30

Holland America Lines, <https://www.hollandamerica.com/en>

06/2024 – Present

Developed scalable and responsive React.js interfaces for cruise itinerary and booking platforms, ensuring performance optimization and accessibility compliance within an Agile development environment.

Role: UI Developer

Technology: React.js, Node.js, AEM, Java, ADA, Jira, BitBucket

Team Size: 25

Zervio App, <https://www.zervio.com>

11/2023 – 03/2024

Zervio builds a software solution that benefits a diverse range of industries by enhancing efficiency, lowering maintenance costs, improving asset performance, and optimising resource allocation.

Role: React.js Developer

Technology: React.js, Node.js, Styled-Components, Redux, RestAPI

Team Size: 10-12

Rhealize App, <https://app.rhealize.com/>

07/2022 – 10/2023

Rhealize offers a unique hiring toolset that encourages thoughtful discussion and reflection about candidate/company fit at critical early stages of engagement.

Role: Full Stack Developer

Technology: React.js, Styled-Components, RestAPI, GraphQL, AWS

Team Size: 6
